Dear Assemblyman Jones:

A bill to protect the rights of Wisconsin's taxpayers, A-3767, deserves your support. This bill, known as the "Taxpayers Bill of Rights," strengthens the right of taxpayers to fair treatment.

Some of the problems my clients encounter in the tax filing process would be resolved more quickly and fairly if A-3767 was enacted into law. This bill will improve communications between state government and taxpayers and will also enhance the tax collection process.

Twenty-one other states have a Taxpayer Bill of Rights, and in 1989 Congress passed a federal law providing the same safeguards for federal tax filers. Once again, I urge you to support A-3767 and would appreciate it if you would write back to me with your position on this matter.

Thank you for your time and consideration.
Sincerely,
Joseph Smith, CPA
